

University of California unit limitations

<p>UC Berkeley</p>	<p>College of L&S: 80 units</p> <p>College of Environmental Design: 86 units</p> <p>College of Chemistry: 80</p> <p>College of Engineering: 89</p> <p>College of Natural Resources: 90</p> <p>Haas School of Business: none</p>	<p>*College of Letters and Sciences: A student who has accumulated more than 80 units from a 4-year institution is considered to have excess units and will not be admitted. A student who has completed 80 or fewer UC transferable semester units at a four-year and then transfers to a community college will not accrue excess units and will be considered for admission.</p> <p>College of Environmental Design: Same as College of L&S except that its limit on transferable coursework taken at a four-year university is 86 semester units.</p> <p>Other colleges: UC Berkeley's other colleges total both university units and a maximum of 70 community college UC transferable units. The limits on combined transferable university and community college work are as follows:</p> <ul style="list-style-type: none"> • College of Chemistry: 80 semester units; applicants with more than 80 units require special approval • College of Engineering: 89 semester units • College of Natural Resources: 90 semester units. Though the college does not have a specific unit limitation, it carefully reviews applicants with 90 or more semester units to ensure that they can graduate within a reasonable time. • Haas School of Business: No maximum limit
<p>UC Davis</p>	<p>Subject to review at 80 units</p> <p>College of Engineering: all applicants screened regardless of units</p>	<p>Applicants with 80 or more transferable semester units of combined baccalaureate and community college coursework are subject to review by the deans of the College of Agricultural and Environmental Sciences, the College of Letters and Sciences and the College of Biological Sciences. Applicants subject to review will be admitted if a dean's assessment is that the student is making good progress toward the baccalaureate degree and can complete the degree within the college's maximum unit limit. All transfer applications to the College of Engineering undergo careful screening to assess the level of academic preparation for the major. Students who are well prepared for the majors will be admitted to the college even if they exceed the 80 unit standard.</p>
<p>UC Irvine</p>		<p>UCI does not set a limit on the number of units an applicant may earn at a four-year institution before enrolling at a community college. It is important to note, however, that at least 36 of the final 45 quarter units completed by a student for the bachelor's degree must be earned in residence.</p>

UCLA	86 units	With the exception of the School of Nursing, UCLA generally considers a student who has accumulated more than 86 semester units at a university to have exceeded maximum units allowable for admission. Such a student will not be admitted. For the College of L&S, a student who completed 86 or fewer UC transferable semester units at a university then transferred to, and remained exclusively at, a community college does not exceed the maximum units allowable for admission purposes.
UC Merced	80 units	UC Merced considers a student who has accumulated more than 80 transferable semester units at a university to have exceeded maximum units allowable for admission. Such a student will not be admitted without committee review and approval. A student who completed 80 or fewer UC transferable semester units at a university then transferred to, and remained at, a community college does not exceed the maximum units allowable for admission purposes.
UC Riverside	80 units	UCR does not limit the number of units an applicant may earn at a four-year institution before enrolling at a community college. However, UC eligible applicants who have attended a four-year institution and who present 80 or more semester units in transfer credit will be reviewed by the dean of the college for completion of a specified pattern of courses that provides continuity with upper division courses within the major. An applicant will be admitted if the dean's office determines that the student can complete a baccalaureate degree within the maximum limit of 216 quarter units.
UCSD	90 units	UCSD considers a student with more than 90 transferable semester units from the combination of a two year and four-year institution to be in senior standing. UCSD sets a 90 semester unit limit when a student has attended both a two year and a four year institution. UCSD will transfer a maximum of 70 semester units from a community college; the admissions staff looks for those students who have accumulated 90 or fewer semester units
UC Santa Barbara	90 units	The College of Letters and Science does not accept applications from students who have earned 90 or more semester units from a combination of two year and four year institutions
UC Santa Cruz	90 units	UCSC does not accept applications from students who have earned 90 or more units from a four year institution or a combination of two year and four year institutions. This campuswide policy applies to admission to the campus and is not subject to college or departmental interpretation.
