Job Title: Lab Technician – Full or Part Time

Job Description:

This position offers opportunities for students to learn our process of synthesizing a combinatorial compound library of small molecules in an industrial lab setting. Duties include organizing a chemicals stockroom, washing glassware, and housekeeping laboratories. It might also involve in following established laboratory SOP's for compound library synthesis. Requires a high school degree with some optional laboratory experience.

Salary Range: \$9.00/hour - \$10.00/hour
